<b>Frontend Technologies</b> <ul style="list-style-type: none"><li>JavaScript (ES6+, Vanilla JS)</li><li>React.js</li><li>HTML5/CSS3 (Less)</li><li>Tailwind/Bootstrap</li><li>JS Standalone Libraries</li></ul>	<b>API Technologies</b> <ul style="list-style-type: none"><li>RESTful APIs</li><li>OAuth</li></ul>	<b>Web Servers</b> <ul style="list-style-type: none"><li>Apache</li><li>Ngnix</li></ul>	<b>Other Tools &amp; Technologies</b> <ul style="list-style-type: none"><li>Zoho</li><li>npm</li><li>Postman</li></ul>
	<b>3rd Party APIs Expert</b> <ul style="list-style-type: none"><li>Google APIs</li><li>Social Media</li><li>CRMs (Zoho, Hubspot)</li><li>Payment Gateways (Stripes, Paypal)</li></ul>	<b>CMS &amp; E-commerce Platforms</b> <ul style="list-style-type: none"><li>WordPress</li></ul>	<b>DevOps &amp; Cloud Platforms</b> <ul style="list-style-type: none"><li>AWS EC2, S3, Cloud9</li><li>Dedicated Servers / VPS</li></ul>
		<b>SDLC Methodologies</b> <ul style="list-style-type: none"><li>Agile (Scrum, Kanban)</li></ul>	

## SECONDARY SKILLS

<b>Database Management</b> <ul style="list-style-type: none"><li>SQL (MySQL Lite, PostgreSQL)</li><li>NoSQL (MongoDB)</li><li>Redis</li><li>Elasticsearch</li></ul>	<b>Backend Technologies</b> <ul style="list-style-type: none"><li>Python (FastAPI)</li><li>Node.js (Express.js)</li></ul>	<b>Version Control</b> <ul style="list-style-type: none"><li>GitHub</li><li>GitLab</li><li>Bitbucket</li></ul>	<b>Project Management &amp; Collaboration Tools</b> <ul style="list-style-type: none"><li>Asana</li><li>Monday.com</li></ul>
<b>API Technologies</b> <ul style="list-style-type: none"><li>GraphQL</li><li>JSON, XML</li></ul>	<b>Frontend Tools and Technologies</b> <ul style="list-style-type: none"><li>Vue.js</li><li>Angular</li><li>Figma</li></ul>	<b>Web Servers</b> <ul style="list-style-type: none"><li>Nginx</li></ul>	<b>Other Tools &amp; Technologies</b> <ul style="list-style-type: none"><li>HubSpot</li><li>DNS Management</li><li>Webpack</li><li>Yarn</li><li>Swagger</li></ul>
<b>DevOps &amp; Cloud Platforms</b> <ul style="list-style-type: none"><li>Docker</li><li>CI/CD/CT</li><li>AWS (EC2, S3)</li><li>Google Cloud Platform</li><li>Digital Ocean</li></ul>	<b>SDLC Methodologies</b> <ul style="list-style-type: none"><li>Test-Driven Development (TDD)</li></ul>	<b>CMS &amp; E-commerce Platforms</b> <ul style="list-style-type: none"><li>Shopify</li><li>Magento</li><li>Squarespace</li><li>Webflow</li></ul>	<b>Testing</b> <ul style="list-style-type: none"><li>Jest</li><li>PHP Unit Tests</li><li>Selenium</li></ul>
	<b>Low-Code Platforms</b> <ul style="list-style-type: none"><li>Bubble.io</li><li>Lovable</li><li>Bolt ai</li></ul>		

## PROFESSIONAL EXPERIENCE

**IDS Infotech**  
**Senior Software Engineer**

**Sep 2023 - Present**

### **Project 1:** HMO IDS-Argus Application

Lead the development of a medical contracts building and managing application using Laravel 11, featuring multiple user roles.

#### **Responsibilities and Achievements:**

- **Solo Development:** Independently managed the entire project lifecycle.
- **Laravel Expertise:** Leveraged Laravel 11 to create a robust MVC backend.
- **Multi-Role System:** Implemented a three-tier user role system for differentiated access and functionality.
- **Contract Management:** Developed features for building and managing medical contracts efficiently.
- **Database Design:** Created a scalable database structure to handle complex medical contract data.
- **User Interface:** Designed an intuitive interface for easy navigation and contract management.
- **Testing and Quality Assurance:** Conducted thorough testing to ensure application reliability and performance.

### **Project 2:** Peleman - Social Media Integration

Collaborated with the client's development team to enhance their application with advanced file management and social media integration capabilities.

- **React Development:** Worked extensively with the Uppy React library for file upload functionality.
- **API Integration:** Implemented custom social media integrations for Google Drive, Google Photos, Facebook, and Instagram.
- **Backend Development:** Created PHP APIs to handle file uploads and management.
- **Cross-Platform Compatibility:** Ensured seamless functionality across various social media platforms and file storage services.
- **Personalized Editor:** Contributed to the development of a customized editor for manipulating uploaded files.
- **Team Collaboration:** Effectively integrated into the client's development team, adapting to their workflows and standards.
- **Performance Optimization:** Optimized file handling and processing for improved application performance.

**QSS Technosoft**  
**Senior Software Engineer**

**Feb 2023 - Aug 2023**

**1.** Lead development of Laravel 8-based "Captain Picks" live betting customer management app. Integrated Discord for role control and Stripe for payments.

#### **Responsibilities and Achievements:**

- **Project Leadership:** Managed end-to-end project lifecycle, ensuring objectives were met.
- **Laravel Expertise:** Utilized Laravel 8 to create secure MVC backend with real-time updates.
- **Discord Integration:** Integrated Discord API for seamless user role management.
- **Stripe Payment:** Successfully incorporated Stripe, enabling one-time and recurring payments.
- **Responsive Dashboard:** Designed & implemented dynamic dashboard for user/subscription statistics.
- **Subscription Management:** Established subscription features with automated renewal reminders.
- **Quality Assurance:** Ensured app stability through rigorous testing and prompt bug resolution.
- **Deployment & Maintenance:** Orchestrated cloud server deployment, maintaining high performance.
- **Cross-Functional Collaboration:** Led effective collaboration across teams for optimal results.

2. Contributed to a dynamic WordPress project, collaborating with a 2-person team and a 3-4 person client's development team from Los Angeles. Designed a drag-and-drop flow chart UI using jQuery UI library, integrated JS WireMock APIs within Docker, and managed CRUD operations through WireMock API. Developed page layouts, leveraged JSON data storage, and utilized Docker and GitLab for seamless project management.

**Responsibilities and Achievements:**

- **Collaborative Development:** Worked closely with a multi-disciplinary team, including client's developers, for 5+ months.
- **jQuery UI Implementation:** Designed drag-and-drop flow chart UI using jQuery UI library widgets, enhancing user experience.
- **Integrated JS WireMock APIs Handling:** Successfully integrated WireMock APIs within the Docker environment, ensuring reliable API interactions.
- **JSON Data Storage:** Created a robust data management system using JSON storage, facilitating efficient CRUD operations.
- **Tabs System:** Implemented an intuitive tabs system to organize and navigate between different flow chart called Maps.
- **Project Tools:** Utilized Docker for seamless environment setup and GitLab for version control and custom ticket management.
- **Pipeline Management:** Leveraged GitLab's pipeline tools to streamline development and deployment processes.
- **Effective Communication:** Maintained regular communication with the remote US LA team, ensuring project alignment.
- **Client Collaboration:** Collaborated closely with the client's team to understand requirements and deliver desired functionality.

**Collabera Digital**

**Oct 2022 - Feb 2023**

**Software Developer (Skill Upgrading Program)**

Completed a month-long skill upgrading training in Magento2, followed by a 4-month engagement in the development of Mediquip's B2C platform. Contributed to the platform's implementation and enhancement using Magento2 expertise.

**Responsibilities and Achievements:**

- **Magento2 Training:** Successfully completed a focused one-month training to enhance skills in Magento2.
- **B2C Platform Development:** Played a key role in the development of Mediquip's B2C platform.
- **Feature Implementation:** Actively contributed to implementing and enhancing features for platform.
- **Collaboration:** Collaborated with the development team for seamless component integration.
- **Client Project Engagement:** Gained hands-on experience by working on a live client project.
- **Problem-Solving Enhancement:** Aided troubleshooting, and refining problem-solving skills.

**Own Infotech Pvt. Ltd**

**Oct-2020 To June 2022**

**Senior web developer**

During my two-year tenure at Own Infotech, I played a pivotal role in shaping the company's trajectory from its early stages to a thriving entity with a team of over 20 professionals. As a versatile team member, I managed various aspects of the business while fostering an environment of growth and collaboration.

**Responsibilities & Achievements:**

- Led team expansion from 4 to 20+ members.
- Managed cross-functional modules with technical expertise.
- Acted as key client liaison, ensuring satisfaction.
- Received "Employee of the Year" award at annual function.
- Spearheaded process optimization and problem-solving.
- Promoted professional development and collaboration.
- Achieved results driving company growth and success.

**Kbizsoft Solutions Pvt. Ltd.**  
**Junior web developer**

**Aug-2019 To Sep-2020**

At Kbizsoft, my foundational year marked a transformative journey, where I immersed myself in learning from ground zero and honed essential work ethics.

**Responsibilities & Achievements:**

- Gained comprehensive insights and experience starting from scratch.
- Developed a strong foundation in work ethics and professionalism.
- Absorbed the essential principles of the industry and its dynamics.
- Fostered a commitment to continuous learning and growth.
